Security for Credit

# Credit Life **DRIVE**

This product line removes anxiety by securing auto financing customer liabilities (loans and leases). It means you can plan for any unforeseen circumstances during the lifetime of the loan with no risk to the agreed repayment schedule.

Credit Life **DRIVE** is specially designed for auto financing and includes the following options for payment protection for employees, public service workers and the self-employed:

## **Death cover**

- Protects the family of the borrower/lessee in the event of his/her death

## **Life cover**

- Protects the borrower/lessee and his/her family in the event of his/her death, incapacity to work/physical debilitation or unemployment

Each individual product can be tailored to the finance provider's circumstances and can include additional services, e.g. driver disability or vehicle breakdown. Credit Life **DRIVE** payment protection insurance offers Credit Life partners these special advantages:

- competitive edge through innovative product design
- improved customer profitability
- manageable repayment amounts for customers

**If you are already a successful finance provider, our insurance products and services will add to that success!**
